**Do Ghosts Haunt Swamps.**

No, never. Its foolish to fear a fancied evil, when there are real and deadly perils to guard against in swamps and marshes, bayous, and lowlands. These are malaria germs that cause ague, chills and fever, weakness, aches in the bones and muscles and induce deadly typhoid. But Electric Bitters destroys and casts out these vicious germs from the blood. "Three bottles drove all the malaria from my system," wrote Wm. Fretwell, Ladama N. **Susie Gonca Dead.**

Susie Gonca, wife of Dr. A. R. Gonca, after an illness of over twelve months, died on the 22nd day of May with that dread disease, consumption. She leaves a family of four girls and her old and worn out husband to mourn her loss. She was thirty-two years old, and died in the prime of life. She was a kind and affectionate wife and mother, and her little children loved her for she was so good and kind to all, and was liked by all who knew her. She bore her sickness without a murmur, and was the most resigned person that I have ever seen. She believed in the future world, and was a member of the Christian church for several years.

Mrs. Gonca and Mrs. Lundy Laughlin were great friends and when Mrs. Laughlin got down with consumption, she would have Susie to wait on her so she went and attended to her day and night until poor Mrs. Laughlin died. Still she stayed and attended to John until he died. When she got home she was completely worn out, and soon after she was taken with the same disease. A Friend.
